

Data Required For this Project

Krushnna Baviskar (July 7, 2019)

This project required data of all hospitals in india including private hospitals aswell . hospitals data we can get from government websites

link :- <https://data.gov.in/catalog/hospital-directory-national-health-portal>

This project also required data of longitude and latitude of Police station which is located in india.

link :- <https://data.gov.in/keywords/police-station>

From above websites we can easily get Longitude and latitude of all hospitals which are located in india.

Next step is by using Foursquare API , we can easily locate and user the location of Hospitals and Police station Near by user.
